

Products Report,

I plan to have the ABATE Products & Information trailer at the Davidson Express Chopper Fest at the Knoll-Gas Motorsports Park, US 131 Exit 55, Martin, MI on July 25,26,27. This event is advertised in our Michigan Rider Newsletter. The reason I bring this event up is because Michelle Smith, the host of American Thunder TV program is going to be at this event and she is planning to visit the ABATE of Michigan products trailer to become a member of ABATE of Michigan.

This is the second year for this event and I would encourage our members to consider attending. Plan to purchase your ABATE products and to welcome one of our newest members Michelle Smith.

If you haven't been on our abateofmichigan.org web site lately, you really should check it out. The Products pages have been improved for easier viewing and ordering. There also is a printable ABATE Products catalogue. Anyone can print this out to take to his or her meetings and events to order ABATE products.

Hope to see you at many of the ABATE events this summer. Ride Safe!

Thank you for supporting ABATE.

Michael J. Olinger
